High Quality Aluminum Ringlock System

LIGHTER TO HANDLE. FASTER TO BUILD. STRONGER IN PERFORMANCE.

The MSafe Aluminum Ringlock System is a high-performance scaffolding solution that combines the strength and durability of aluminium with a fast, secure and versatile Ringlock connection system.

Its innovative rosette connection allows multiple configurations, making it ideal for complex structures, elevated work platforms and demanding construction applications.

With easy handling, faster erection, reduced transportation weight and built-in safety, MSafe Aluminum Ringlock helps you work smarter, safer and more efficiently.

Our Product Range

Aluminium Ringlock Ledger with Aluminium Accessories

1.5M
Thickness: 3mm
Diameter: 48.3mm
Grade: 6082-T6

1.2M
Thickness: 3mm
Diameter: 48.3mm
Grade: 6082-T6

Aluminium Ringlock Vertical 3M without spigot

Length: 3m
Thickness: 3-4mm
Diameter: 48.3mm
Grade: 6082-T6

Aluminium Hollow Screw Base Jack 500mm

Length: 500m
Width: 150mm x 150mm
Thickness: 5mm
Grade: 6082-T6

Aluminium Ringlock Diagonal Brace with Aluminium Accessories

1.5 x 2.0 M
Length: 1500m
Thickness: 3mm
Diameter: 48.3mm
Grade: 6082-T6

1.2 x 2.0 M
Length: 1200m
Thickness: 3mm
Diameter: 48.3mm
Grade: 6082-T6

Spigot with Bolt & Nut 3 9 x 5 x 295mm

Length: 295mm
Thickness: 5mm
Diameter: 39mm
Grade: 6082-T6

Full Aluminium Hatch Plank 530 x 1500mm without ladder

Length: 1500m
Width: 530mm

Aluminium Ringlock Ledger with MS Accessories 1.5M / 1.2M
Aluminium Ringlock Diagonal Brace with MS Accessories 1.5 x 2.0M / 1.2 x 2.0M
